dropbox

5 Marks – Sending Object in intent

- Create a registration form.
- Add the data filled in the registration form in an object and send the data as an object to activityTwo using an Intent.

5 Marks – Options Menu

- Create options menu while showing the Action Bar in application.
- Add at least 4 options and add one option as an Icon in Action Bar.
- Add Click action on all of these options to show a Toast.

5 Marks – Fragments

- Create an activity with 3 buttons at the bottom of the screen.
- Create an android app with 3 fragments with different background color and name.
- On click of each button load the respective fragment.

Students are given freedom to use any layout and design the app to their own imagination.

Students have the freedom to combine any of the above applications.

Please complete the task, and record the screen with the output, and upload it to LearnSeneca along with the **app** folder of your android app.

Also, checkout the class recording for detailed instructions for assignment and how to submit the assignment.
